## Activity Guide 2

### Name That Noise!

## ACTIVITY 2: Name That Noise!

### Learning objective:

- ▶ To help your child to practise their listening skills.
- ▶ To help your child to practise their comprehension skills.

### Learning approach:

Start by ensuring that you have 4 or 5 different props ready to make a sound with. Examples could be; maracas, opening and closing a door, rattling pencil pots, dropping a book on the floor etc.

Have your child sit down and explain to them that we are going to be playing a game to practise their listening skills.

You can either use a blindfold to cover your child's eyes (if appropriate) or ask them to cover their eyes with their hands - no peeking!

Start with the first sound ensuring that you warn your child it is about to happen. Perhaps counting down from 5 so that they are ready for it. Ask your child to shout out once they have heard the noise if they think they know what the sound was.

Allow your child to guess the sound and then move on to the next one. At the end of the game remind them how quiet and still they were as they played the game and ask them to remember these listening skills at all times of the day.

This game can (and should) be repeated regularly using different props.

### Resources needed:

- ▶ Blindfolds (if required)
- ▶ Props to make the sounds with

## Top tips:

- ▶ We recommend that you rotate the props that you use each time you play this game to ensure that your child doesn't get bored.
- ▶ This is a great activity to do either inside or outside, so make use of all available spaces in your home.
- ▶ Ensure that your child doesn't see what the items are before you start playing the game!

We'd love to see photos of the activities in action! Why not share your pictures at:
